Period fo	The MAILING DATE of this communication apports Reply	ears on the cover sheet with the c	orrespondence address			
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIREMONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Grove #4,792,017.

Grove, as best seen in Figure 1, discloses a metal telescopic ladder extension assembly comprised of hollow exterior leg components 16 (threaded), 18, threaded extendable interior legs 24, which are received within the hollow exterior leg components, and metal securing assembly 26, 28 (pin), used to secure the extendable leg in a desired position.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Planck et al #4,029,174. Planck, as best seen in Figure 2, discloses a metal telescopic ladder extension assembly comprised of hollow exterior leg components 11, 15 (threaded), and threaded extendable interior legs 17, which are received within the hollow exterior legs.

Claim Rejections - 35 USC § 103

Claim 6 is rejected under 35 U.S.C. 103(a) as being unpatentable over Grove or Plank as applied to claim 1 above, and further in view of Huang #4,671,383. Grove or Plank fail to disclose a pin passing through aligned apertures of the interior and exterior legs. Huang teaches the general utility of a pin assembly 22, 22a, passing through aligned apertures 211, 251 of outer

21 and interior 25 extendable legs, respectively, so as to securely fix the legs in a stationary position when extended. Therefore, to one of ordinary skill in the art, it would have been obvious, as a matter of engineering design choice, to provide the leg assemblies of Grove or Plank, with aligned pin receiving apertures that receive pins, as taught by Huang, so as to securely fix the legs in a stationary position when extended, while producing no new and unexpected results.

Response to Arguments

Applicant's arguments with respect to claims 1 and 6 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Specifically, the applicant has now recited a metal pin mounted through aligned apertures of the interior and exterior legs. See claim 6. Accordingly, **THIS ACTION IS MADE**FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Application/Control Number: 10/076,291

Art Unit: 3634

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hugh B. Thompson II whose telephone number is (703) 305-0102. The examiner can normally be reached on Monday thru Friday 9 am to 5:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Daniel Stodola can be reached on (703) 308-2686. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
